Discover detail:

- Discover provides self-service access to de-identified / aggregated data. It is for the initial purpose of cohort creation, data exploration, and trial feasibility.
- In order to get identifiable information for recruitment, you will still need to go through the IRB and Honest Broker processes. You can reach out to Don Saner at Banner for more detail on this.
- Discover training guides and resources can be found in the Research Catalog, or by going to the Teams folder: Discover Resources.
