**Scheduling for PET & MRI Scans:**

Please be aware of your subject’s study windows if they require a MRI or PET and avoid having a protocol deviation.

**PET scheduling** for any type of patient, clinical or research, is out **6-7 weeks**. The best advice is for study teams to schedule as far in the future as possible. With the single PET scanner and such a high clinical need, it will be hard for Imaging to guarantee that studies can meet the windows on short notice.
Due to the MRI scanner being replaced at Main Campus (Tucson), the first available appointments for outpatient MRI are in December 2023. North Campus has MRI availability, this is where 80% of outpatients are scheduled.

Please reach out to your designated **BH CRPD** with questions.

---

**Banner Hospital Billing Update:**

December 2023 bills have been reviewed and emails have been sent out to the corresponding UA Departments via UA Box Health. January 2024 invoices will be distributed by the second week of March 2024.

**OnCore Training**

**OnCore Trainings in EDGE**

This allows OnCore users to complete initial training modules according to their own schedule or retake refresher trainings when needed.

Subject Management portion will continue to be in person, due to the in-depth training. The required EDGE Learning & Advarra University modules will need to be completed prior to attending the Subject Management session.
